

Van Jally Opon

Senior Full Stack Software Engineer

✉ vanjallyopon@outlook.com ☎ +639631039083 📍 Dumalinao, Zamboanga Del Sur

SUMMARY

Senior Full Stack Engineer with **8 years of experience** building scalable, **high-performance web applications**. Proficient in **Python, Django, FastAPI, Java, Spring Boot, React, Node.js, TypeScript, Express.js, PostgreSQL, MongoDB, CI/CD pipelines**, and **microservices** architecture, with a strong focus on developing maintainable, efficient, and reliable software solutions.

EXPERIENCE

Senior Full Stack Engineer

Mar 2024 – May 2026

Hireplicity

Manila, Philippines (Remote)

- Developed robust backend services and enterprise web applications using **C#, .NET, ASP.NET Core**, Entity Framework Core, **LINQ**, and **SQL Server**, implementing scalable solutions that improved performance, reliability, and maintainability.
- Designed and implemented secure **RESTful APIs**, authentication systems, and backend services using **Python** and **Node.js**, integrating both **PostgreSQL** and **MongoDB** databases.
- Built and maintained enterprise-level backend services with **Java** and **Spring Boot**, applying object-oriented programming principles, design patterns, and best practices to create maintainable and scalable systems.
- Built reusable frontend components with **Next.js** and **React**, creating responsive and accessible user interfaces that enhanced the overall user experience.
- Integrated **AI** capabilities into web applications using **LLM APIs, AI services**, and automation workflows, implementing intelligent features such as conversational assistants, content generation, data processing, and workflow automation to improve user experience and business efficiency.
- Deployed and maintained applications on cloud platforms such as **Microsoft Azure** and **GCP**, leveraging **Git, Docker, Kubernetes, Helm, CI/CD pipelines**, and cloud monitoring tools to optimize performance, troubleshoot production issues, and ensure high **availability, reliability, and scalability**.

Full Stack Developer

Feb 2021 – Mar 2024

LANEX Corporation

Cebu City, Cebu, Philippines (Remote)

- Designed and developed scalable full-stack web applications using the **MERN stack (MongoDB, Express.js, React, Node.js)**, delivering responsive user interfaces and high-performance **RESTful APIs**.
- Built and optimized backend services with **Python (Django/FastAPI/Flask)** and **Java (Spring Boot)**, implementing secure authentication, business logic, and efficient database interactions.
- Developed **Android** applications using **Java** and **Kotlin**, implementing user-friendly interfaces, **API integrations**, and mobile features to deliver reliable and efficient mobile experiences.
- Developed **RESTful APIs** and **microservices** to improve application scalability, reduce response times, and support seamless communication between distributed services.
- Designed and implemented database solutions using **MongoDB** and **SQL databases**, optimizing queries and data models for improved performance and reliability.
- Collaborated with cross-functional teams to develop, test, and deploy robust software solutions using modern development practices, including **AWS, Git, Docker**, and **Agile methodologies**.
- Delivered maintainable and high-quality applications by writing clean, reusable code and implementing comprehensive testing, debugging, and performance optimization techniques.

Web developer

Aug 2017 – Jan 2021

Arcanys

Cebu, Philippines (Remote)

- Migrated backend data storage from **MySQL** to **MongoDB**, redesigning data models and optimizing queries to improve scalability and performance for high-volume user data and transactions.

- Designed and implemented secure authentication and authorization using **Laravel**, **Vue**, **JWT**, and **OAuth**, ensuring reliable access control and data protection.
- Developed and integrated secure payment processing APIs using **Express.js** and **Python**, connecting multiple payment gateways to deliver fast and reliable transaction workflows.
- Built and customized **WordPress CMS platforms** using **PHP**, **MySQL**, custom themes, and plugins, enabling efficient content management and delivering scalable web solutions.
- Developed responsive, **SEO-friendly** user interfaces using **Laravel** and **Codeigniter**, delivering a consistent experience across desktop, tablet, and mobile devices.
- Designed scalable, cloud-ready application architecture using **Docker**, **AWS**, **MySQL**, supporting future feature growth and increasing system reliability.
- Collaborated with product managers, designers, and engineers using **Git** and **Agile methodologies** to design, develop, test, and deploy production-ready features with high code quality.

EDUCATION

Bachelor's of Computer Science

Ateneo de Manila University

Oct 2013 – Aug 2017

TECHNICAL SKILLS

Languages:

JavaScript (ES6+), TypeScript, Python, Java, C#, Go, PHP, SQL, HTML5, CSS3, Bash/Shell

Backend:

Node.js, Express.js, NestJS, FastAPI, Django, Flask, Spring Boot, ASP.NET Core, RESTful APIs, GraphQL, WebSockets, gRPC, Microservices, Serverless Architecture

CMS Platforms

WordPress, Drupal, Joomla, Contentful, Strapi, Shopify, Magento

Cloud & Hosting:

AWS, Microsoft Azure, Google Cloud Platform (GCP), Vercel, Netlify

Performance Optimization:

Lazy Loading, Code Splitting, Caching Strategies, CDN, Image Optimization, SSR, SSG, ISR, Database Indexing, Query Optimization

Frontend:

React.js, Next.js, Vue.js, Angular, Redux Toolkit, React Query (TanStack Query), Zustand, Tailwind CSS, Material UI (MUI), Bootstrap, Chakra UI, SASS/SCSS, Vite, Webpack

Databases:

PostgreSQL, MySQL, Microsoft SQL Server, MongoDB, Redis, DynamoDB, Elasticsearch, Firebase Firestore

DevOps & Infrastructure:

Docker, Kubernetes, Terraform, GitHub Actions, GitLab CI/CD, Jenkins, Nginx, Linux, Helm, ArgoCD

AI Integration:

OpenAI API, Anthropic Claude API, Google Gemini API, LangChain, LangGraph, LlamaIndex, Pinecone, Weaviate, pgvector, Retrieval-Augmented Generation (RAG), AI Agents, Model Context Protocol (MCP)
